Sprint Planning Meeting 2

Meeting agenda

- Revise on notes from sprint review meeting 1
- Discuss and reallocate backlogs
- Scheduling of next Scrum meeting.

Notes:

0.1 Revise on notes from Sprint Review Meeting:

The first sprint meeting wasn't the best, but there were many learning points, one of the main points mentioned by the client/product owner was that he wasn't satisfied that we didn't have a working product, this in turn means that we can't compromise with regard to that. We need to have something to show!

We also received guidelines on how to improve our documentation and thus we need to use those pointers.

Before we start the following sprint we need to fulfil the outstanding tasks from the previous sprint and then set ourselves reasonable tasks.

Some of the outstanding tasks were: Register Login page incomplete.

0.2 Reallocation of backlogs

Since there were some incomplete tasks, we have decided to reassign tasks in order to fulfil the backlog, these are the new backlog allocations :

- Lethabo: Continue on the layout of the application complete all pages;
- Fortune: Performed reasonably well in his task and thus has been reassigned his task of Test Driven Design, but he has been encouraged to improve from the previous document since realistically there is more to be considered this sprint;
- Kgopotsho: Has been relieved of doing the architecture document and has been assigned to assist Lethabo in connecting the "Use cases " into an online database so that the use cases can be fulfilled ;
- Chris : Continues to continue with the administrative work as per usual and has been handed the responsibility of also taking care of the Architecture Document;
- Mthulisi: Assisting with research and will also step in to designing the layout of the menu page, he will also be responsible to fulfil his previous task of doing the RAD document;

0.3 Scheduling of next meeting:

Meeting adjourned, Sprint review meeting to be scheduled on 15 August 2016 at 14h00.
