Sprint 3 Planning Meeting

Meeting agenda

- Reassess the backlog
- Discuss pointers brought up
- Scheduling of next Scrum meeting.

Notes:

0.1 Update on backlog allocations:

For the upcoming sprint we had assigned the following backlog :

- Lethabo: Required to complete the interface and connect the app to an online database;
- Fortune: Required to complete the Testing document and ensure that he implements the testing designs onto the app;
- Kgopotsho: Implementing the testing code onto the app, work along side Fortune;
- Chris: Completed and upload all the minutes for the meetings, also create the Architecture document and to ensure that the App architecture complies with the document;
- Mthulisi: Complete the RAD document and look for any bugs in the App;

0.2 Pointers from previous Sprint

A couple areas for concern that were brought up during the previous sprint:

- Professionalism of our presentation wasn't up to par and thus we need to improve;
- Our documentation didn't meet up to the required expectations, thus we need to improve in that regard;
- We need to make sure that our application works on a mobile device that connects to the net, thus we need to reduce the dependency on our emulator;

0.3 Scheduling of next meeting:

Meeting adjourned, Sprint review meeting to be scheduled on 30 August 2016 at 12h00.
